Annual Conference
Call for Proposals Worksheet

Use this document to help plan your proposal!
We outline every question asked on the site.

Step 1: Enter the Presenter's Details

How we use this information
During the review process, any information shared on this page will not be visible to reviewers in order to keep the review process confidential and as unbiased as possible. CSTA staff members will have access to this.

Upon acceptance, the following information will be published on the conference website:

- Name
- Organization
- Title/Job Role
- Profile Image
- Biography

Demographics
As a part of our overall commitment to equity and diversity, CSTA needs to gather accurate data about the makeup of our submitting presenters.

Asking for demographics after the call for proposals has closed has only allowed us to get this information for approximately 30% of submitters, and does not ensure that our data is accurate. Understanding what the demographics of submitting presenters look like will give us an idea of what process we have made in increasing equity and diversity in our presenter population, and will show us where we still have work to do for future years.

This information will **not** be seen by the reviewers.

Primary Presenter vs. Co-Presenters

- Only the primary presenter will receive a complimentary registration to the CSTA 2027 conference if the proposal is accepted.
- For this application, please limit your co-presenters to only those who will be attending CSTA 2027 and presenting at the session. Should your proposal get accepted, you will have the opportunity to add additional contributors for recognition.
- To maximize the voices represented, we will be limiting overall acceptances for named individuals, even where that individual is part of a panel or poster presentation.

First Name:
Last Name:

Email Address:
Mobile Phone:
Organization:
Title/Job Role:
Please Provide your Race/Ethnicity:
Please Share your Gender:
Please Share your Age:

Profile Image: *Please submit a 300x300 px image*

Biography: *maximum of 1000 characters*

Work Address:

Required for Teachers: *If you are a teacher, please enter a link to verify the grades you teach. This could be the URL to your staff profile, your LinkedIn profile, a copy of your school ID, an email address, etc.*

Teacher Employment Verification Link:

If you have any co-presenters you will be asked to enter the above information for them as well

Step 2: Proposal Overview

This page will be seen by reviewers and the conference committee. **Please do not include any personal identifying information on this page.** Do not include URLs that would identify you as the presenter. All details provided on this page will be visible to attendees in the conference program and mobile app.

CSTA reviewers will be evaluating submissions based on the criteria in this rubric.

Only **current and retired K-12 teachers**, **school and district employees, university professors, and researchers** are eligible to submit proposals for presentations, sessions, or posters at the CSTA conference. Presenters must verify their teaching role as part of the submission process.

What about non-teacher organizations?
Representatives from nonprofits, companies, or other organizations interested in participating in the conference are encouraged to engage through our **partnership team**
These partners can purchase sponsored content opportunities, such as exhibitor booths, workshops, or promotional sessions, by contacting the CSTA Partnerships Team directly.

Why this policy?

This ensures that the conference remains teacher-focused and provides a valuable platform for educators to share their expertise, while partners have clear, equitable channels to support, invest, and engage with the community.

How do I reach out to the Partnerships Team?
Partners@csteachers.org, where Lauren Welke & Jason Bohrer will be available to help!

Are you a current or retired K-12 teacher, school and district employee, university professor, or researcher?

- ☐ Yes
- ☐ No
  - ☐ I understand that my proposal will not be accepted through the Call for Proposals process.

Proposal Title: *100-character maximum*

Proposal Type: *select one of the following*

- ☐ Workshop (2.5 hours)
- ☐ Session (1 hour)
- ☐ Mini-Session (20 min)
- ☐ Poster (2 hour display)

Topic: *Select one of the following topics.*

- ☐ Accessibility
- ☐ Advanced Topics (Beyond AP CS A)
- ☐ Algorithms & Programming
- ☐ AP CS A
- ☐ AP CS P
- ☐ Artificial Intelligence (including Machine Learning)
- ☐ Classroom Practice / Pedagogy / Instructional Strategies
- ☐ Coaching & Administration
- ☐ Computational Thinking
- ☐ Cross-curricular Integration
- ☐ CS Education in the Community
- ☐ CS Education Partners / Industry
- ☐ CS in STEAM or Makerspaces
- ☐ CS Student Recruitment & Retention
- ☐ CS Teacher Recruitment & Retention
- ☐ Culturally Responsive Teaching
- ☐ Cybersecurity
- ☐ Data & Analysis
- ☐ Data Science
- ☐ Equity & Inclusion
- ☐ Ethics / Impacts
- ☐ Feedback & Assessment / Instructional Design
- ☐ First Year CS Teacher
- ☐ Human Centered Design
- ☐ Impacts of Computing
- ☐ Physical Computing / Robotics
- ☐ Professional Growth & Identity for Teachers
- ☐ Project-based Learning
- ☐ Student Identity/Culture in CS Education
- ☐ Teacher Wellness

- [ ] Unplugged Activities

Is equity, inclusion, and/or accessibility your session's primary focus?

- [ ] Yes
- [ ] No

If yes, how does it support Equity, Inclusion, and Accessibility?

Proposal Overview/Abstract: *500 character minimum, 1500 character maximum*
The abstract you insert here will be included in the conference program. It will be used in the review process and by attendees when selecting which presentations to attend. The abstract should be explanatory and enticing.

Step 3: Proposal Details

This section will be seen by reviewers and the conference committee. **Please do not include any personal identifying information in this section.** Do not include URLs that would identify you as the presenter. Conference attendees will be able to view these details on the conference website and mobile app.

Primary Grade Level Addressed: *select ONE*

- [ ] PreK-Elementary
- [ ] Middle School
- [ ] High School
- [ ] Teacher Development/Admin & Coaching

Secondary Grade Level Addressed: *optional*

- [ ] PreK-Elementary
- [ ] Middle School
- [ ] High School
- [ ] Teacher Development/Admin & Coaching

Please select the primary (required) and secondary (optional) CSTA Teacher Standards associated with your proposal:

- [ ] 1a. Apply CS practices
- [ ] 1b. Apply knowledge of computing systems
- [ ] 1c. Model networks and the Internet
- [ ] 1d. Use and analyze data
- [ ] 1e. Develop programs and interpret algorithms
- [ ] 1f. Analyze impacts of computing
- [ ] 2a. Examine issues of equity in CS
- [ ] 2b. Minimize threats to inclusion

- [ ] 2c. Represent diverse perspectives
- [ ] 2d. Use data for decision-making to improve equity
- [ ] 2e. Use accessible instructional materials
- [ ] 3a. Pursue targeted professional development
- [ ] 3b. Model continuous learning
- [ ] 3c. Examine and counteract personal bias
- [ ] 3d. Commit to the mission of CS for all students
- [ ] 3e. Leverage community resources
- [ ] 3f. Participate in CS professional learning communities
- [ ] 4a. Analyze CS curricula
- [ ] 4b. Develop standards-aligned learning experiences
- [ ] 4c. Design inclusive learning experiences
- [ ] 4d. Build connections between CS and other disciplines
- [ ] 4e. Plan projects that have personal meaning to students
- [ ] 4f. Plan instruction to foster student understanding
- [ ] 4g. Inform instruction through assessment
- [ ] 5a. Use inquiry to facilitate student learning
- [ ] 5b. Cultivate a positive classroom climate
- [ ] 5c. Promote student self-efficacy
- [ ] 5d. Support student collaboration
- [ ] 5e. Encourage student communication
- [ ] 5f. Guide students' use of feedback

PK–12 Standards - Please select which of the following student subtopics best aligns with your proposal. If the student subtopics are not applicable to your presentation, please leave this question blank.

Foundations:

- [ ] Algorithms and Design: Algorithmic Problem Solving
- [ ] Algorithms and Design: Machine Learning
- [ ] Algorithms and Design: Impacts of Algorithms & Design
- [ ] Programming: Program Development
- [ ] Programming: Variables & Data Storage
- [ ] Programming: Reading & Documenting
- [ ] Programming: Testing & Refining
- [ ] Data and Analysis: Data Collection & Preparation
- [ ] Data and Analysis: Data Investigation
- [ ] Data and Analysis: Impacts of Data Science
- [ ] Systems and Security: Hardware & Software
- [ ] Systems and Security: Networks
- [ ] Systems and Security: Security
- [ ] Systems and Security: Impacts of Computing Systems
- [ ] Computing and Society: History of Computing
- [ ] Computing and Society: Emerging Technologies
- [ ] Computing and Society: Humans & Computing

- [ ] Computing and Society: Career Exploration

Speciality:

- [ ] Artificial Intelligence: Design & Development
- [ ] Artificial Intelligence: Data Science for AI
- [ ] Artificial Intelligence: Human Responsibility
- [ ] Artificial Intelligence: Professional Practice
- [ ] Cybersecurity: Network Theory & Design
- [ ] Cybersecurity: Network Operations
- [ ] Cybersecurity: Threats & Security Measures
- [ ] Cybersecurity: Cybersecurity Policies
- [ ] Cybersecurity: Professional Practice
- [ ] Data Science: Creation & Curation
- [ ] Data Science: Analysis & Modeling Techniques
- [ ] Data Science: Model Interpretation & Reasoning
- [ ] Data Science: Visualization
- [ ] Data Science: Professional Practice
- [ ] Game Development: Design & Development
- [ ] Game Development: Player Experience
- [ ] Game Development: Architecture
- [ ] Game Development: Professional Practice
- [ ] Physical Computing: Hardware & Circuit Design
- [ ] Physical Computing: Inputs & Outputs
- [ ] Physical Computing: Design & Development
- [ ] Physical Computing: Connectivity & Internet of Things
- [ ] Physical Computing: Professional Practice
- [ ] Software Development: Design & Development
- [ ] Software Development: User Experience
- [ ] Software Development: Testing & Refining
- [ ] Software Development: Professional Practice
- [ ] X+CS: X+CS

Proposal Takeaways:
How will teachers be prepared to implement this? Please explain both tangible and intangible resources, takeaways, and objectives, such as handouts or other materials, if applicable. The takeaways should ensure that attendees leave your presentation feeling prepared to apply the skills/resources gained from the presentation.

300 characters maximum

Please share any instructional or pedagogical strategies/best practices that would be addressed or demonstrated in your proposal:

Detailed Presentation Outline:

- ***Presenters are required to use the template provided below that outlines their presentation.***
- ***The outline should not include anything that would identify the presenter.***
- *The outline should be uploaded as a* ***PDF***
- *The outline should include and match the time allotted for the proposal type: Workshop-2.5 hours, Session-1 hour, Mini-session-20 minutes.*
- *The outline should include learning goals, discussion questions, and activities that the presenter plans to cover in the time allotted for their presentation.*

REQUIRED Outline Template: *Presentation Outline Template.*

Proposal Logistics

Reviewers, committee members, and CSTA staff will be able to see the details of this section. Attendees will be able to see if a particular device is required to participate in the session.

I am open to presenting this proposal as a 2-hour poster session:

- ☐ Yes
- ☐ No

What device(s) do attendees need to bring to fully participate in your presentation?

CSTA will provide the following AV equipment in your breakout room:

- Projector
- Screen
- Podium
- One (1) Podium Microphone
- One (1) Wired Microphone
- Slide advancer
- WiFi

I understand that I will be required to provide my own presentation laptop, and CSTA is not able to add extra or different AV equipment to my breakout room.

- ☐ Yes, I understand.

I understand that CSTA cannot guarantee a specific room layout or furniture arrangement. CSTA will make reasonable efforts to align the room configuration with the needs identified in my proposal, but final layouts are subject to venue limitations and operational considerations.

- ☐ Yes, I understand.

Workshops: Is there a max capacity for your session?
